THE STRIKE IS OVER.

MANY EMPLOYES APPLY FOR THEIR OLD POSITIONS.

Several Labor Organizations Desert the Cause of the American Railway Union—Debs' Proposition Ignored by the General Managers' Association.

CHICAGO, July 16.—Chicago is very rapidly resuming its normal condition. The result of the Federation of Labor Friday, supplemented by the meeting of the Trades assembly Friday night, at which it was resolved to call off the strike and resume work at once, is accepted universally as the death blow of the Pullman boycott.

Of course Debs and Sovereign are saying that it is not over and they are going to fight to the bitter end. Debs goes so far as to say he will tie up every road in the United States.

For the most part the railroads are taking back their employes as fast as they apply, and there were a great many applications Saturday morning. They are not discharging any of the men who were employed to take the places of the strikers, and such of the strikers as are reemployed are taken as individuals.

The Federal troops are getting ready to leave. The camp on Lake Front has been busy packing and orders for the soldiers' departure are expected every moment. It is believed their destination is California. The state troops are also on the move, but enough will be held in Chicago to prevent any possibility of a renewed outbreak.

It may truthfully be said that with very few exceptions every man in Chicago, whether employed by a railroad or belonging to the Building Trades council, is seeking work on practically any terms offered.

Many of the striking employes of the stockyards reported for work Saturday. The packinghouses received 5000 cattle, 20,000 hogs and 15,000 sheep. Armour, Swift and Morris killed during the day and meat trains were sent out.

Refused Debs' Proposition.

CHICAGO, July 16.—John M. Egan, chairman of the General Managers' association, announced at noon Saturday that the action was final which was taken Friday night in returning to Mayor Hopkins the proposition for the return of strikers to work submitted by President Debs of the American Railway union.

Upon his arrival at his office Saturday Mayor Hopkins received a letter from the General Managers' association returning the proposition of settlement of the strike as made by Debs, Sovereign and Howard, with the information that it would not be considered. The mayor forwarded the communication to President Debs.

"I regret that the answer is such," said the mayor. "I believe that the railroad companies should have taken advantage of such a fair offer in the interest of peace, law and order. Of course, they know their business better than I do."

President Gompers, when asked about the refusal of the railway managers to entertain Debs' proposition, said today: "I regret it very much. It was bad for the railroads, bad for the men and bad for the people. It will have, however, no effect on the action taken by the Federation of Labor in declining to order a general strike."

Debs said: "We propose to prosecute this fight with greater vigor than ever." He said he had seen Pullman's statement to the public, and the fact that Pullman had at last condescended to make a statement was very satisfactory to the American Railway union. Debs added that the arbitration commission which President Cleveland proposed was apparently now unnecessary in view of the action of the General Managers' association in refusing absolutely to have anything to do directly or indirectly with the American Railway union. The president could of course still appoint such a commission, but Debs said he could see no use for such action by Cleveland now.

"The general managers," said Debs, "have undertaken to crush the American Railway union and the American Railway union will fight back."

Deserted the Strike.

CHICAGO, July 16.—The Building Trades council has deserted the cause of the American Railway union strike. "We will adhere to the action which we took Friday night in the event," said President J. S. Ryan today. "When we decided on that course we were under the impression that the Managers' association would accept Debs' proposition, or had already done so, and the strike was all over. I hardly think they would have taken that course if they had known to the contrary. However, it is a lost cause, and even though an attempt is made to prolong the fight, we will not alter our decision."

Position of Switchmen.

CHICAGO, July 16.—The switchmen have taken decided action regarding the strike. A meeting held Saturday resulted in the following being promulgated:

We, the grand board of directors of the Switchmen's Mutual Aid Association of North America, now assembled at the city of Chicago, have carefully considered our position in the pending strike of the American Railway union, and

Whereas, our grand master, Miles W. Barrett, did not countenance the same, but held that all members of the Switchmen's Mutual Aid association be governed by our constitution. Be it therefore

Resolved that the sense of this body, the grand board of directors' assembly, do fully indorse our grand master in his actions in said strike.

[Signed] CHARLES MCCARTHY, Chairman.
JAMES D. SHERIDAN,
W. C. MCCLEAN.
Board of Directors.

This is interpreted to mean that the most authoritative body, the switchmen's organization, has officially discountenanced the strike, and the switchmen being the backbone of the strikers' forces, the outlook for the Debs-Sovereign plan for continuing the strike is discouraging.

Debs Still Defiant.

CHICAGO, July 16.—The American Railway union has determined to make a desperate struggle to regain for that order the prestige it has lost in the great strike, now rapidly approaching a close. The executive board had a meeting yesterday, the object of which was to map out a course for the future. After a lengthy discussion it was decided to send out "revivalists" to all important sections of the west. Six agitators had been sent out Saturday and it was decided to augment this number.

After this meeting adjourned an enthusiastic meeting was held in Uhlich's hall on North Clark street, President Debs presiding. He made a rousing speech, reminding one of the early days of the strike.

"The strike," said he, "is now more prosperous and more encouraging than ever before. We can and must win. The men who went back to work will again come back to us and victory is ours. Grand Chief Arthur of the engineers is a scab jobber and he will go down in history as a traitor to organized labor. He instructed his men to work with scabs and tells them their scabbing is honorable. He is a tool in the hands of the general managers."

Fifteen meetings were held in different parts of the city, several of which were addressed by Debs.

President Debs visited the stockyards and addressed a crowd of strikers, who have for the most part failed to secure their old positions. He urged them to continue the strike which, he declared, was never nearer to a victory than now.

The men agreed to stand by Debs, but at the same time expressed themselves violently against the men who have taken their places. The switchmen and enginemen were especially loud in their protests against a surrender. The butchers also had bitter words, all these men having seen their jobs filled the day before by nonunion and imported men. The opinion was expressed loudly that the war was only begun.

Santa Fe Trains Moving.

DALLAS, July 16.—Santa Fe trains are now moving all along the line in Texas, and it is believed the trouble is at an end.

Situation In California.

SAN FRANCISCO, July 16.—At 9 Saturday morning the situation in northern California is practically unchanged. Under very strong military guards a few trains are running but there has been nothing like a resumption of traffice. The Southern Pacific company has decided for the present to run only day trains.

Refused to Go Out.

LEXINGTON, Ky., July 16.—James Murphy, chief American Railway union order of Kentucky Union road, has received a telegram from Eugene Debs ordering all members of the order to strike. The men however, refused to go out.

The Federation Won't Join.

CHICAGO, July 16.—The conference of the American Federation of Labor adjourned at 7:30 yesterday evening, after having decided against a strike. The position of Debs was indorsed, however, and $1000 voted for a defense fund for the trial of Debs. The executive council of seven will hold a final session today.

Did Not Attack Troops.

SACRAMENTO, July 13.—The belligerent attitude of the strikers Tuesday had entirely changed yesterday, and the men generally, say the regulars will not be opposed unless they try to move the Pullman cars, when they will be treated roughly. The regulars took possession of the depot. No violence was offered.

THREE MEN DEAD.

A Jealous Husband Kills Two and Is Shot by His Wife.

LOVELOCK, Nev., July 16.—Three men were killed here Thursday night as the result of a husband's jealousy. Robert Logan shot and killed Dan Lovelock and Fred Sullivan and was in turn killed by his own wife. She had applied for a divorce and her husband threatened to kill some of her male friends.

Logan did the shooting while riding in a stage with his wife, Lovelock and Sullivan. Lovelock was the driver of the stage.

Logan used a rifle, and while preparing to throw the bodies into a well, was shot by his wife, who took a pistol from the belt of one of the dead men.

FIGHT WITH OUTLAWS.

Deputy Marshals Kill Three Desperadoes In the Territory.

PARIS, TEX., July 16.—A dispatch was received at United States Marshal Williams' office here Saturday from Clarksville, announcing the killing of three men by Deputy Marshals Joe McKee, D. E. Booker and Lee McAfee. Two of them are said positively to be Longview bank robbers, but the marshal's office will give out no information.

Three or four days ago four men headed for Texas from the Territory. There were two women in the party. They crossed and recrossed Red river several times as if to tangle their trail. As their movements were suspicious the deputy marshals procured a hack and followed them, taking that means of conveyance to put the parties off their guard. The men were supposed to be making for Clarksville to rob the Red River County bank or the bank at Detroit.

The marshals came upon them Saturday in camp and attempted to arrest them. They made a fight and three were killed and the fourth captured.

DOINGS OF CONGRESS.

FULL PROCEEDINGS OF THE HOUSE AND SENATE.

Senator Peffer Advocates His Resolution Favoring Government Control of Railway and a Single Tax Doctrine—Utah Statehood Bill Passes.

WASHINGTON, July 10.—When the senate met today, and after the transaction of some routine business, the resolution introduced by Senator Peffer Monday was laid before the senate.

Mr. Peffer discussed his resolution, which looks to the government control of the railways and coal fields, and the adoption of a doctrine of single tax. He appealed to the senators to listen, for while he was not a prophet nor an [illegible] yet he had time and time again called the attention of the country to what seemed to be within the range of an ordinary man's horizon—the public danger. All his prophecies related to one fundamental error which the country had fallen into—the danger of allowing a few men here and a few men here to usurp governmental functions. All the public functions should be exercised by government officers.

He referred to the strike at length, bringing Debs and Pullman into the debate.

His remarks caused considerable opposition. Several senators could not see the situation as Mr. Peffer did and the debate lasted for some time.

Senator Daniel of Virginia offered a substitute for the resolution of Senator Peffer, indorsing the action of the president, declaring that the United States had the power to enforce the laws respecting mail routes and interstate commerce and to put down riots and acts of treason, the president should have control of the militia.

There were many calls for a vote on the Daniel resolution, but Senator Gallinger of New Hampshire asked that it go over and this was equivalent to an objection.

The postoffice appropriation bill was then taken up and passed.

The senate then took up the diplomatic appropriation bill on motion of Mr. Blackburn. He yielded to Mr. Faulkner to move to take up the bill for the admission of Utah territory as a state. The bill was passed, and with the senate committee amendment and without debate or division.

The senate went into executive session and at 5:45 adjourned.

WASHINGTON, July 11.—The senate is making up for lost time and is now disposing of the appropriation bills at a rapid rate. The diplomatic and consular, the invalid pension and the military academy appropriation bills were disposed of.

The strike question again agitated the serenity of the senate, although nothing like the fiery passion of Tuesday's speeches on the subject marked the proceedings. After an hour's debate, in which the firmness, courage and patriotism of the president were commended by all, Mr. Daniel's resolution briefly indorsing the president's action and pledging him the sympathy and support of the nation was adopted as a substitute for Senator Peffer's resolution.

An amendment favoring arbitration was defeated by a vote of 11 to 35.

Several private bills were passed, and at 5:15 the senate adjourned.

WASHINGTON, July 12.—The appropriations bills are fast being considered and at the present rate of progress it is probable that next week will see them all disposed of. Two more important bills were passed, the army and the fortifications appropriations bills, while some progress was made on the river and harbor bill.

The only interesting discussions of the day occurred during the consideration of the army bill.

Several bills of minor importance were passed and conferrees were appointed on the military and diplomatic and consular appropriation bills.

WASHINGTON, July 13.—The river and harbor appropriation bill, which usually gives rise to sharp debate and consumes from three days to a week for its completion, was passed. Another important bill, the legislative, executive and judicial bill, was immediately taken up and put well on its way toward passing before the senate adjourned.

WASHINGTON, July 14.—The proceedings in the senate were listless and devoid of interest, the only thing that relieved the general monotany being a personal explanation of Mr. Allen.

Consideration of the legislative, executive and judicial appropriation bill was resumed, but it was passed owing to the tendency of some senators to filibuster and the lack of a quorum, and at 4:15 the senate adjourned.

The House.

WASHINGTON, July 10.—The house passed a bill opening the Uncompahgre and Unitah Indian reservations in Utah, alloting lands in severalty to the Indians and restoring about 300,000 acres to the public domain.

Most of the day was devoted to debate on a bill extending the act of 1890, declaring lands granted to railroads not then constructed forfeited to the government so as to forfeit lands of railroads whose roads were not completed within the time specified in the land grants. The bill involved about 54,000,000 acres. It was not disposed of.

The title of Mr. Enloe to his seat as a representative from the Eighth Tennessee district, which was contested by B. E. Thresher, was considered without opposition, the committee on elections being unanimous in the opinion that Mr. Thresher had no ground for contest.

WASHINGTON, July 11.—By virtue of the adoption of a special order the house was able to reach a vote on the McRae land grant forfeiture bill, and it was passed.

The senate bill granting a right-of-way through the White Earth and Fond du Lac Indian reservation to the St. Paul, Minneapolis and Manitoba was passed; also a bill to authorize the Biloxi and Black Bay Bridge company to construct a bridge over the Bay of Bolixi in Mississippi.

WASHINGTON, July 12.—The house agreed to the senate amendments to the bill for the admission of Utah as a state, and after discussing a bill for retiring officers of the revenue cutter service, under the special order adopted Wednesday, it proceeded with the consideration of bills reported from the foreign affairs committee. Eleven bills were passed, none of national importance.

WASHINGTON, July 13.—The house agreed to the report of the conference on the pension appropriation bill. The remainder of the day was devoted to consideration of private bills. Although several were debated, none were passed.

At 5 o'clock the house took a recess until 8 in the evening, which was devoted to the consideration of private pension bills.

WASHINGTON, July 14.—The house transacted no business before the hour arrived which had been set apart by special rule for eulogizing the late Representative G. W. Houk of Ohio. Many addresses were made in his memory.

Appointments.

WASHINGTON, July 16.—The president sent to the senate the following nominations of postmasters: Andrew Currie, Shreveport, La.; Will Hardins, Ladonia, Tex.

Texas Appropriations.

WASHINGTON, July 13.—The committee of the senate reported the river and harbor bill. The only items in it which are of any interest to Texas are: Increase of the appropriation for Sabine Pass to $300,000, and the increase of the appropriation for the Galveston ship canal from $40,000 to $50,000. There will be no trouble met in putting these amendments through with the rest of the bill. The additions were made at the suggestion of Senator Coke, who is a member of the commerce committee.

HANGED AT CHICAGO.

ASSASSIN PRENDERGAST DIES UPON THE SCAFFOLD.

His Neck Was Broken by the Fall and the Body Cut Down In Ten Minutes. He Would Make No Public Statement of His Crime.

CHICAGO, July 14.—The brutal murder of Carter Harrison has at last been avenged. Assassin Eugene Patrick Prendergast was hanged here at 11:48 o'clock yesterday.

Prendergast walked to the scaffold with a very firm step and the only sign of weakening was deep and heavy breathing. He made no remarks to the public concerning his fate, but to the priest said he did not commit the crime in malice.

The murderer of Mayor Harrison was committed on the night of Oct. 28 last, at his home in this city. Prendergast was tried and sentenced to death and would have paid the penalty long ago had it not been for a stay of the execution made by Judge Chetlain. His lawyer did all they could to save his neck, but at last had to give up.

Between 6 and 7 o'clock Prendergast partook heartily of breakfast, consisting of ham and eggs. He showed a ravenous appetite and about 9 o'clock sent word to Jailor Morris that he was again hungry. The jailor had his prisoner served with another hearty meal. This Prendergast disposed of quickly and seemed to relish it greatly. The assassin talked freely with his spiritual advisers, and several times apparently fearing that they would desert him, remarked: "You must stay with me to the end."

As the hour for his execution came near Prendergast showed some signs of slightly increasing nervousness. But on the whole he was remarkably calm and well collected. Throughout the jail the officers and others remarked about the behavior, for it was the general opinion that he would weaken badly a good while before the hanging.

Prendergast was game to the last. At 11:48 he shot downward with his head twisted to one side, his neck having apparently been broken. At 11:58 the body was lowered.

County Judge Lyons Has Disappeared.

OSCEOLA, Mo., July 16.—County Judge George H. Lyons, who has been confined in the Kansas City and Clinton jails for nearly two years for contempt of the Federal court, and who was paroled by Judge Phillips in order to come home and make the county and state tax levy, has disappeared, and it is said he will not return to jail if he can avoid it. He is believed to be bordering on insanity, as a result of his long confinement. He left ostensibly to visit friends in Pennsylvania, but his closest friends know nothing of his whereabouts.

Negroes and Whites Riot.

HARRISBURG, Ark., July 14.—Word was received here from Marked Tree, a small town in the eastern part of Poinsett county, of a general riot growing out of a cutting affair between a white man and a negro, in which the white man was seriously cut. Fuller Bros. and Chapman & Dewey, lumber manufacturers, work a large force of negroes, and the whites notified them to leave at once. Deputies Claunch and Hall have gone to the scene of the trouble, and the sheriff will go on the first train.

The Rio Grande's Saline Properties.

SAN ANTONIO, July 11.—The waters of the Rio Grande river have suddenly become impregnated with salt from its mouth to a point above Eagle Pass, a distance of 700 miles, and many farmers who have been using the water for irrigation purposes have been compelled to discontinue the practice owing to the injurious effect which the water has upon plant life. The water is also unfit for drinking purposes. The remarkable phenomenon cannot be explained.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

Sold by all druggists.

Ill fares the land, to hastening ills a prey,
Where wealth accumulates and men decay;
Princes and Lords may rise or fade,
A breath can make them as a breath has made;
But a bold peasantry, a country's pride,
When once destroyed, can never be supplied.

WHAT has become of the states right democrat?

Dallas has a new ice factory. Hot times are expected about August 14.

WHAT has become of "the leading and burning issue" of the last campaign?

DEMOCRATIC conventions continue to indorse christianity and compliment the devil.

SLIGHT shocks of earthquakes were felt Tuesday at St. Louis, Memphis and other points.

SOME men are patriotic enough to serve the people the fourth term. Especially when the salary is increased.

SENATOR VOORHEES, of indiana pays Debs a high compliment in an interview with a reporter of the St. Louis republic.

THE very men who howl about "honest money" are the very fellows who want a dishonest dollar—one which will steal two bushels of wheat.

GOVERNMENT control of railroads will come sooner or later, and strikes like the present will only tend to hasten the matter.—McKinney Enquirer.

IT is now said that the object of running John H. Reagan for governor before the democratic primaries was for the purpose of tolling populists into the primaries.

COXEY is in sympathy with the strikers and is now in Chicago. The authorities should watch Coxey and not allow him to tread on the "grass."—McKinney Enquirer.

THERE is a growing sentiment outside the populist party in favor of government ownership of railroads. Nothing has been so conducive of this growth as the late destructive strike.

SUPERINTENDENT A.H. NICKLERS, of the Dallas cotton mills at Dallas, was killed Tuesday in his office by Pink Barnes, a foreman in the weaving department. They quarrelled about a settlement. Nicklers was killed with a pocket knife in the hands of Barnes. John W. Nicklers, son of the deceased, was seriously cut with the knife. Barnes surrendered and was placed in jail.

DECLINED THE RENOMINATION.

South Bend, Ind., July 14.—Col. Charles Girard Conn, democratic congressman from this district, has declined the renomination. He says he is not in harmony with his party, and will espouse the cause of labor.

TO RENTERS.

McKinney, Tex., July 16, '94.

Under the present administration with the low price of wheat the renter loses all his labor and in some instances $1 more per acre—with the rete of rent at $4 per acre. Cotton is not much better and beef cattle worse. Mules and horses are just as dull sale. I have this information from live stock dealers.

The question is how are we to get out of this era of low prices which is a form of serfism?

We must elect men to congress who are for the people and not for monopolies. I believe that the sub-treasury is the only salvation for the people. The banks get money from the government at 1 per cent. We are willing to give 2 per cent. That will double pay U. S. officers for services done.

Suppose a renter buys a home. The government loans him $1000 at 2 per cent on 100 acres and takes a mortgage on the same. The interest amounts to $20 per year. If the farmer puts in cultivaton 40 acres the first year his rents only amount to 50cts per acre. The next year he will have in 80 acres which only costs him 25cts per acre. The next year he puts in the full amount—100 acres—which costs him only 20cts per acre rent. At this rate any poor honest man can get a home.

The land sharks and English lords say that such will break up our government. This is not the fear, however. It will break up monopolies and prevent them from making serfs of the laborers, their wives and daughters. JOHN JOHNSON.

DIXON'S PRESCRIPTION.

The Noted Preacher Makes the Big Strike the Text for a Sermon.

New York, July 15.—Rev. Thomas Dixon, Jr., who finds a text for each Sunday's sermon in the events of the preceding week, preached in Association hall to-day on the strike. This great uprising of the laboring classes, which had cost the country $10,000,000 and was likely to cost $5,000,000 more, had its origen in a great injustice perpetrated by somebody. It was impossible to imagine the laborers, after enduring the miseries consequent on the depression of the present year, leaving their workshops unless there was injustice somewhere Three lessons, however, had been learned by the strikers:

First, that the railroad managers were utterly incapable to handle the railroads the moment the strike was precipitated; second, that mad violence and disorder would under no circumstances be tolerated by the American people; third, that the national government alone has the power to break such a strike and raise the railroad blockade, from which follows the logical conclusion that the national government should own the railroads of the country. The railroads were built strictly for the accommodation of the public and neither labor leader or railroad manager should have the power, or be permitted, to interfere with the public rights. If the national government owned the railroads it would be high treason for any one to do such a thing. The strike had made inevitable the government ownership of railroads in the near future. Had not their mismanagement by the corporations already brought the matter to the notice of the country, the cost of traffic will be half then what it is at present and the country will never again be paralyzed by conflicts like that of the past week.

PACIFIC RAILWAY DEBT BILL.

Washington, July 14.—By a meeting which lasted all day the house committee on Pacific railways was able to-day to finish the problem which it has had up throughout the session, and to reach a practical agreement on a plan for the settlement of the debts of the Central and Union Pacific railways. The bill, which will be reported to the house will be the main feature of one introduced by Chairman Reilly with some important amendments of the second draft of it. The time for settlement of the debt to the government is fixed at fifty years, semi-annual payments in liquidation of it to be made. Interest is to be at the rate of 3 per cent per annum.

The principal amendments agreed to to day were in the direction of making ironclad the government's hold upon the property and insuring it from losing any of its rights by the new arrangements; also in obliterating the provisions for a purchasing committee in case the property should change hands, the committee not deeming it best to anticipate such a contingency. According to the plan the first mortgages, amounting to $65,000,000, will be paid as they mature, clearing the property of debts on which it is paying 6 per cent; the sinking fund, now amounting to $18,000,000, will be devoted to paying the first mortgage. The government's lien, which will become the first lien under the plan, will draw interest at 3 per cent, the principal being paid in graduated semi-annual payments throughout a period of fifty years.

Propositions were made during the discussion to have this period reduced to forty years, but it was concluded that in the present condition of the roads they could not be expected to meet such requirements. The period of fifty years is a reduction to one-half of the time originally proposed in the bill.

One member of the committee made a stand for government ownership, taking the position held by the California members of congress, Maguire and Geary. His views did not gain the support which they might have won if it had seemed clear that the railroads would become paying property in the hands of the government. Evan had that been the prospect most of the committeemen expressed themselves as opposed to government ownership on general principles. Under the bill, however, the government will foreclose if the corporations fail to meet their payments.

The amended bill will be printed and submitted early in the week, when a formal vote will be taken. The senate committee of which Senator Brice is chairman, has held no meeting lately and it is understood to have been waiting for the house committee to take the initiative and frame a bill which it can pass,

BAILEY'S INCONSISTENCY.

On Monday, Nov. 20, 1893, Hon. J. W. Bailey delivered a speech in McKinney. THE DEMOCRAT, a paper published in that city quotes extracts from his speech and comments briefly on them in the following lively manner:

BAILEY SNAP SHOTS.

The man who says that I am a populist is either a liar or a scoundrel.—J. W. Bailey.

Why not both?

I never asked my constituency to forgive me for my vote on the clerk hire bill.—J. W. Bailey.

What did you say at Copeville on July 4 last? Who is the "liar or a scoundrel."

To charge me with being a populist is a disgrace to me and acccording too much honor to the populists.—J. W. Bailey.

Why not vice versa?

The populists do not conscientiously favor free coinage of silver.—J. W. Bailey.

Read their plank on finance and observe the populists vote on that question and then inform the public who is a "liar or a scoundrel."

If I cannot do the work of a congressman for $5,000 per year I will come home and hang my head in shame.—J. W. Bailey (in his speech "in the grove at Farmersville," during his campaign against Judge Hare.)

How about the clerk hire bill?

There are some populists which we do not want in the democratic party because they are eternally kicking and wanting office.—J. W. Bailey.

You are "kicking" against Cleveland and Carlisle and have announced as a candidate for the third time. Have you a monopoly on "kicking" and "office seeking?"

Have you populists heard from Virginia and Kentucky?—J. W. Bailey.

Certainly, the populists gained 700 per cent. in Virginia and made gains in Kentucky.

Have you heard from New York, Ohio, Iowa and other points?

You populists should come back and help us fight the battles of democracy.—J. W. Bailey

Why do you want a class to associate with you which is a "disgrace" to you?

When the democratic party refuses to wipe out protection, I will return home and spurn a democratic nomination.—J. W Bailey at Copeville, July 4, '93.

You should get ready to do the "spurning" act.

If Cleveland is a democrat, the democratic party has been wrong for a hundred years.—J. W. Bailey.

The majority of your party representatives say that Cleveland is a democrat. Should the majority rule?

The populists are using clerks and if I engaged in a steal, they are equally guilty.—J. W. Bailey.

Not one populist voted for the clerk hire bill. This is a poor excuse, Mr. Bailey. Do you wish to commit a wrong because some one else did?

If any of my constituents want their proportion of the clerk hire bill, I will take it out of my own pocket and pay it.—J. W. Bailey.

By this it seems that you regard it a duty to return it. Is this and acknowledgement of a wrong?

Mr. Bailey in his Copeville speech, July 4, 1893, declared that if the coming session of congress did not do away with the iniquitous tariff system that he would hang his head in shame before his people and spurn a democratic nomination.

Jay Bird Democracy.

While in Fort Bend county, Tex., receently Mr. A.P. Carter became acquainted with a new political organization, known as the "Jay Bird Democratic association of Fort Bend county." He secured a copy of the constitution and by laws of the order which he showed to the reporter. It bids fair to succeed as the following clause clipped therefrom will prove:

"We therefore declare that any white man now residing in this county or who shall hereafter acquire citizenship in this county, who shall undertake to lead against this association any political faction or voting population opposed to the principles and objects of this association shall be considered and treated as a SOCIAL and POLITICAL OUTCAST.

Populist Executive Committee Meeting.

The executive committee of the peoples party met in McKinney at 10 o'clock a. m, Saturday, July 14, 1894. The main proceedings of the meeting was the receiving of the resignation of Prof. E. G. Howard, candidate for county clerk, which reads as follows:

"To the executive committee of the peoples party and the Voters of Collin county:

Having been nominated by the peoples party of Collin county for the position of county clerk over my protest, and having duly reflected on the matter, it is with regret that I feel it my duty to withdraw from the race. I take this action not from any weakening in the faith, or lack of confidence in the ultimate success of our cause, but from the following reasons: First, I have no ambition to enter politics in an official capacity. Second, it is absolutely essential to the success of our ticket that each candidate make a thorough canvass, and owing to my financial condition and the situation of my family I cannot possibly do this.

For the above reasons I withdraw my name from the race, thanking my many friends throughout the county for the honor conferred upon me, and pledging my support to the cause of political reform, in the future as in the past, and with best wishes for the success of the entire ticket from governor to constable, I remain yours in the cause of humanity.

E. G. HOWARD.

July 13, 1894."

The resignation was accepted. The committee then proceeded to fill the vacancy. The names of M. W. Gentry and E. C. Forbes were presented. The vote on the two resulted in 13 for Forbes and 5 for Gentry. On motion the nomination was made unanimous.

Saturday's Speaking.

Through a misunderstanding District Chairman Hampton, of Bonham, made dates for Dr. Browder to speak in the northern part of the district, and on last Saturday, Dr. Browder's day in McKinney, he was assigned at Denison where he spoke on that day in place of McKinney. As a consequence hundreds of people were disappointed here last Saturday.

A splendid meeting was held, however, in the district court room which was addressed by Capt. Johnson, J. T. Branch, John Doyle and Esq. L L Miller, of Farmersville. Judge Miller, in his polite and able announcement, made a good impression on his hearers and we predict that his vote for county judge will prove his popularity in the coming election.

Messrs. Branch and Doyle, candidates for local representatives, made strong speeches which were enthusiastically received. These gentlemen will in the near future give out appointments to cover the county.

SENSATIONAL SERMON,

Rev. A. E. Baten Refers in Strong Language to Some Members of His Flock.

McKinney, Tex., July 15.—"The Baptist Cause in McKinney" was the subject of Rev. A. E. Baten's sermon at the Baptist church to-day. It was one of the most sensational sermons ever delivered in McKinney. The pastor charged that the Baptist church here was burdened with some questionable members, who were not worthy of the Lord's supper, yet they were on hand at every sacramental service.

A few nights ago Prof. P. B. H. Shearer was arraigned before the Baptist church tribunal on a charge of violating the sacramental ordinance, as he had recently entered into open communion with the Old School Presbyterian brethern.

After a stormy discussion Prof. Shearer was retained by a vote of 21 to 19. At the close of Rev. Baten's sensational sermon to-day one of the brethren made a motion to expel Prof. Shearer. A vote was taken amid pandemonium and the announcement made that Prof. Shearer was expelled.

While Prof. Shearer and his friends were trying to be heard a motion to adjourn was made and announced as carried.

Much feeling has been engendered on both sides and the affair is the talk of the town.

We used almost everything without benefit, Then I said, let us try Chamberlain's Colic Cholera and Diarrhœa Remedy, which we did, and that cured us right away. THE DEMOCRAT correspondent recently took a whirl over a large portion of the eastern part of the county and enjoyed himself hugely, gazing on the unusually fine and promising corn and cotton crops and also by noting the unprecedented strides in development that this brush country has made during the past two or three years. Evidences of the industrious home seekers are apparent on every hand; dwelling after dwelling now lines both sides of the public highways and fills up the formerly long intervening space between the older farmer houses. The thick brush and undergrowth is fast giving way to inexhaustable fields of golden grain and fleecy cotton.

Another very commendable tendency of these people is noticeable and that is to give more attention to fruit growing. Thrifty trees might be seen on every hand, but owing to the late frosts and freezes they are mostly barren this year: however we had the pleasure of eating some very fine, palatable tame grapes.

Fannin County Encampment.

The regular annual Encampment of the Fannin County Alliance will be held two miles north of Ladonia, on North Sulphur, July 24 to 28, inclusive. Mrs. N Meyette, the Genesee county treasurer of the W C T U and a very influential worker in the cause of women says; "I have used Park's Tea and find it is the best remedy I have ever tried for constipation. Business Change.

John E. Wilson will retire as a member of the firm of A. T. Wilson & Co. All parties indebted to the firm will please call and settle at once.

Tommy Jones is headquarters for bargains in groceries.

The rapid advance in the price of land and the amount of labor being expended in clearing it up and putting it in a state of cultivation, indicates very strongly to our mind the near approach of the time when the hitherto waste of "hog-wallows" will have become the most endurable, productive lands of the black waxy belt.

We are glad to note that the executive committee of the peoples party have shown such good judgment in selecting E. C. Forbes to fill the vacancy of county clerk on the populist ticket, caused by the resignation of Prof. E. G. Howard. Mr. Forbes is an honest, moral and able gentleman, now pursuing the occupation of farming.

During the coming political contest and the picnic season don't forget that Tommy Jones is the race for your trade. Platform—Fair prices, good goods and honest deals.

The strike is about over but the rush for good groceries at Tommy Jones' continues with unabated interest.

One of the most delightful affairs of the season promises to be the Queen Esther lawn party to be given at the elegant residence of Mrs. Lovejoy, for the benefit of Kings Daughters charity work, on Friday eve, from 7 to 11. Music, refreshing ices, the poetry of love and moonlight will make up an evening of real pleasure.

Isn't She a Daisy! Quotations from a Democratic Campaign Book.

[BONHAM REVIEW.]

The little 2 x 4 pot-metal politicians of Fannin county and their paid agents, who are running the Fannin County Favorite, have been filling almost a page of their valuable (?) space in every issue for a month past, trying to show the people that the populist writers and even their platforms were favoring communism, or socialism. That we wanted to abolish all private property in land and vest the ownership of the soil in the federal government. For some time we were at a loss to know what was the motive that prompted so studious and determined an effort to force such a lie down the throats of Fannin county farmers. But we understand the matter now. The fact is, the democratic party at Washington and its members of congress have declared in favor of the single tax system of the socialist, Henry George. They have done this in order to capture the socialist vote of New England, where they are quite strong; and the ranting and raving against the populists is the vain attempt of the real criminal to shift the responsibility for his crime to the shoulders of an innocent party, hoping to thus avoid the condemnation of the people, which they know will be sure to overtake the guilty party which advocates the destruction of private property in land.

Here are some quotations from a political pamphlet entitled "Protection or Free Trade," written by Henry George, a prominent democrat of New York, who stumped all New England for Grover Cleveland and the democratic party in the last campaign. Whole chapters in this work was printed in the Congressional Record by dozens of democratic congressmen, such as Washington of Tennessee, who said he "thought the seeds thus sown might enter the minds of some who otherwise would never see or read the work of Mr. George, and might bring forth good fruit." Also Mr Fithan who said "I printed the matter from the book of Mr. George on the subject of the tariff in the Record, and I am glad of it. I have no excuses to make and no apologies to offer." Also Tom Johnson of Ohio who said, "I knew it was well written and calculated to make democratic votes, for that reason I put it in."

Notice the reason assigned by these democrats in congress. It is "calculated to make," not populist, but "democratic votes." For this reason they inserted it in the official journal of congress, as Mr Washinton says, "that it might enter the minds of those who otherwise would not see it." "And," he says, "the gentleman from Michigan and others have evidently been reading the good doctrine which is sound democracy." Thus we see scores of democratic congressmen who are willing to pander to the socialist idea of abolishing land titles, in hopes of capturing the socialist vote for their party. But the double-dyed criminal in this case is your own "grand old democracy," Not only democrats in congress, but a democratic committee, from a democratic house of representatives, and the national democratic executive committee are working heart and soul to extend these principles of socialism. Tom Johnson, democratic congressmas from Ohio, says in a letter which can be seen at the Review office: "The most telling agency, that in the last election brought abont a result that astounded the politicions of both parties, was unquestionably the wide circulation of Henry George's work "'Protection or Free Trade.'" And, he further says, "the democratic executive committee circulated thousands of them." He winds up by saying, "that he (Johnson) has had 100,000 copies printed, and offers them for sale at a very low rate."

Now turn to the report of the select committee to investigate tax assessments in the District of Columbia, on page 8, under the head of differences of the committee (composed of three democrats) and observe the following:

In the original draft of the report proposed by Mr. Johnson, the substitute clause in the appropriation bill as recommended to the house provided for the assessment of nothing but the value of land. On vote of the committee this was over ruled by the two other members, who deemed such a proposition at the present time too radical.

Notice the entire committee favor the proposition, which is to tax every land owner the full amount, for which his land could be rented, thus abolishing, not the title itself, but all the benefits which private ownership confers. But two of the committee think the land owners are not ready to pay all the taxes of the nation, just yet, and want to wait a little longer before putting the plan in operation. We think the above facts show clearly that the democratic party wants to abolish private ownership. below are extracts from the work in question:

"In itself the abolition of protection is like the driving off of a robber.

But it will not help a man to drive off one robber, if another, still stronger and more repacious, be left to plunder him.

Labor may be likened to a man who as he carries home his earnings is waylaid by a series of robbers. One demands this much and another that much, but last of all stands one who demands all that is left, save just enough to enable the victim to maintain life and come forth next day to work. So long as this last robber remains, what will it benefit such a man to drive off any or all the robbers?

Such is the situation of labor to-day throughout the civilized world. And the robber that takes all that is left, is private property in land.

There are two forms of slavery—making property of man, which is only resorted to when population is too sparse to make practicable the other, which consists in making property of land.

Thus it is, that to make either the abolition of protection or any other reform beneficial to the working classes we must abolish the inequality of legal rights in the common heritage.

There is in free trade nothing that conflicts with a rational socialism. On the contrary, we have but to carry out the free trade principle to its logical conclusions to see that it brings us to such socialism.

No matter how complex the industrial organization, nor how highly developed the civilization, there is no real difficulty in carrying out these principles. All we have to do is to treat the land as the joint property of many share holders or as a ship is treated as the joint property of several owners.

In other words, we can leave land now being used in the secure possession of those using it, and leave land now unused to be taken possession of by those who wish to make use of it, on condition that those who thus hold land shall pay to the community a fair rent for the exclusive privilege they enjoy—that is to say, a rent based on the value of the privilege the individual receives from the community in being accorded the exclusive use of this much of the common property, and which should have no reference to any improvements he had made in or on it, or to any profit due to the use of his labor and capital. In this way all would be placed upon an equality in regard to the use and enjoyment of these natural elements which are clearly the common heritage.

"Property in land is as indefensible as property in man. It is so absolutely impolitic, so outrageously unjust, so flagrantly subversive of the true right of property, that it can only be instituted by force and maintained by confounding in the popular mind the distinction between property in land and property in things that are the result of labor. Once that distinction is made clear—and a thorough dicussion of the tariff question must now make it clear—and private property in land is doomed."

All the above quotations are extracts, and are copied from "Protection or Free Trade" as inserted in the Congressional Record by our democratic friends in congress. Let the people judge what party favors abolishing private property in land.

Our dear little local democratic politicians who said we were committed to the ideas of Bellamy, (another socialist) because the Advance advertised his book, notwithstanding the fact that the Advance advertises books of all shades of political opinions, including this democratic favorite, "Protection or Free Trade," and many which are not political at all, should now go out to some good shady place and ask themselves honestly if the action of these democrats in congress, this democratic committee of congress and the indorsement of the democratic executive committee don't commit that party, heart and soul, to the spreading and supporting of the doctrines of those who would abolish private ownership of land? And ain't you daisies, anyway?

2. We declare the people's party to be an anti-monopoly party and reiterate our opposition to the monopolization of the natural resources and public utility by individuals or corporations for speculative purposes,

3. We declare the monopolies of land, money and transportation to be the fruitful sources of social and industrial injustice, inequality and wrong, the parent of monopolies from whichall lesser monopolies spring, and to the end that these monopolies and their baneful consequences may be removed we advocate as appropriate measures of relief:

1. The abolition of all private banks of issue of every character, whether state or national.

2. The construction, ownership and operation of railroads by the government to the extent necessary to control and regulate rates.

3. The governmental ownership and operation of all telephone and telegraph lines.

4. The free and unlimited coinage of gold and silver upon the ration of 16 to 1.

5. The issuance by the government of full legal tender paper money upon some system or plan which, while securing flexibility, shall so regulate the volume of the currency as to limit it to the actual needs of business.

6. We condemn emphatically the issue of gold bonds in time of peace to meet current expenses of the government.

7. We favor the building of the Nicaragua canal under proper treaty stipulation; provided it is built, owned and operated by our government in proper co operation with Nicaragua and Costa Rica.

8. We declare that the doctrine of a tariff for revenue is wrong in principle and we specially condemn the policy of free raw material while manufactured goods are protected.

9. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grants should be forfeited to the state for homestead purposes.

10. No alien ownership of land should be allowed in Texas.

11. Corporations should not be allowed to own more land than they actually use in the prosecution of their business.

12. We favor an effective system of public free schools for six months in the year for all children between the ages of 6 and 18 years and that each race shall have its own trustees and control its own schools.

13. We demand the adoption of a uniform series of text books for the public schools to be furnished by the state at cost.

15. We demand reformation in the punishment of convicts, that convict labor may be taken out of competition with citizen labor; that convicts be given intellectual and moral instructions and that the earnings of the convict above the expenses of keeping shall go to his family.

16. We demand a free vote and an honest count.

17. We demand an efficient lien law that will protect the artisan, mechanic, laborer and material man.

18. we demand that all county officers receive fixed salaries not to exceed in any case $2000 per annum net, and that all fees shall be turned into the general fund.

19. we demand the establishment of a state bureau of labor.

20. we favor the creation of a state board of arbitration to adjust all differences between corporations and employes.

21. we demand that the commissioner's courts shall not be allowed to contract a debt against a county for more than $5000 unless the same be ordered by a majority vote of the county.

22. we demand the free and unlimited coinage of gold and silver at the ratio of 16 to 1 and that they be made legal in Texas tender for all debts.

23. we demand a sufficiency of good money to supply the wants of trade, and believe that $50 per capita is required.

24. we demand such amendment of the vagrant laws as will prevent the prosecutions as criminals of industrious laboring men while in a condition of enforced idleness.

25. while believing that government ownership offers the only complete and satisfactory solution of the railroad question, we nevertheless favor the continuance of the commission, but demand that the commissioners shall be elected by the people and that the law shall be administered in a spirit of fairness to all parties.

26. we demand that the state provide sufficient accommodations for all its insane without discrimination in color.

27. we favor proportional representation.

28. we declare the people's party to be in favor of local self government and the enjoyment by the individual of his natural rights to the greatest extent compatible with the good of society.
